The 3rd annual Bay Area National Arts in Education Week will take place **September 8-14, 2013**. The second week of September, as designated by the US House of Representatives, is a time to celebrate how *“arts education, comprising a rich array of disciplines, including dance, music, theatre, media arts, literature, design, and visual arts, is a core academic subject and an essential element of a complete and balanced education for all students.”*

The week-long Bay Area celebration, titled **Creative Impact**, provides a central platform to unite the Bay Area arts and education communities around a shared vision for the success of each and every child through the wealth of creative experiences and arts learning opportunities available to individuals, families, and communities throughout the year. **Creative Impact** is an alliance of arts and education organizations, individuals and communities across the San Francisco Bay Area dedicated to strengthening, enriching, and improving the social fabric of our community through arts education.
